Overview

Feature:

- 10ft straight pop-up display with spring connections. Graphics are installed on the magnetic panels to combine the whole unity. This is the traditional version.

Includes:

- Custom printed graphics on PVC boards (Doesn't include end caps)
- Straight aluminum frame with spring connections
- 21 magnet bars
- Hard plastic case

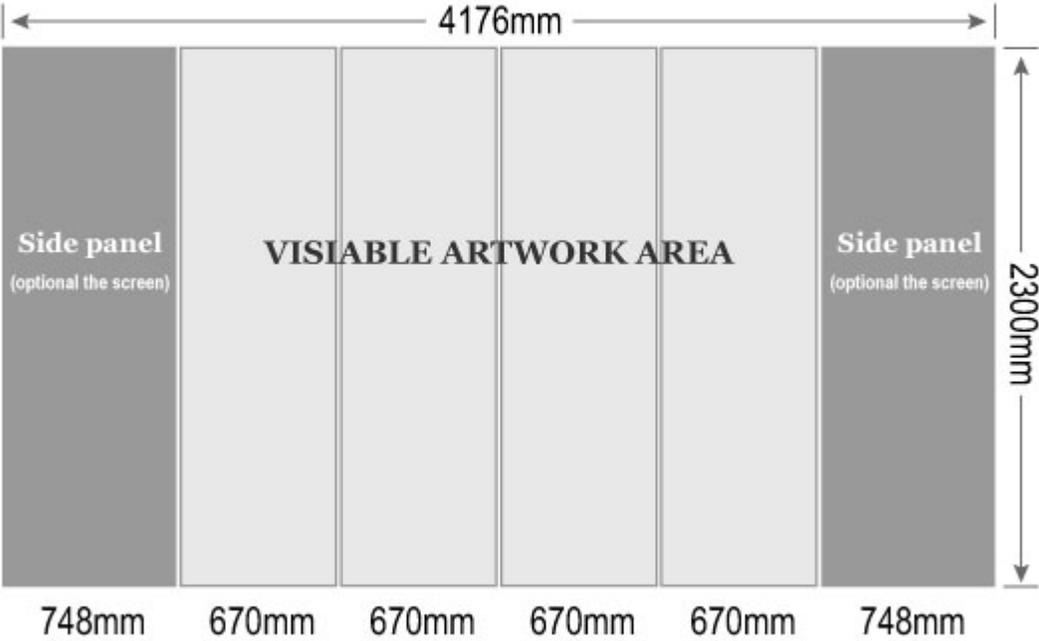

Description:

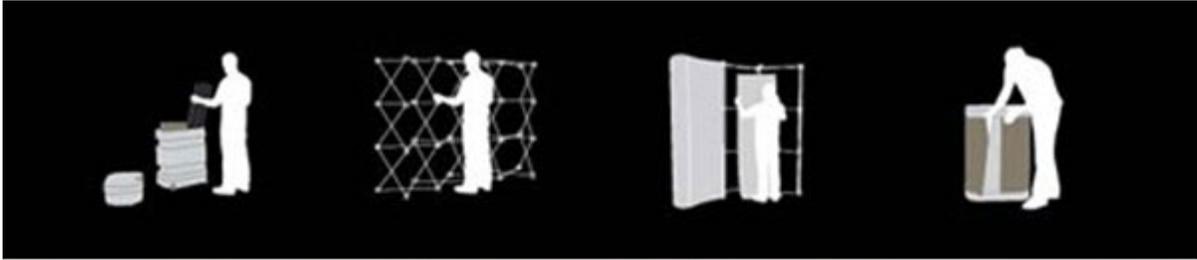

This trade show display is an attractive mural backdrop for exhibit booths. It's ten-foot wide and fits neatly into most trade show booths sizes. This pop-up display is easy to set up. Users extend the banner simply by pulling it. The display frame is latched in place with the provided springs. Metal posts are attached magnetically with the backgrounds by clipping them into place. Printed on knitted polyester with a 720 dpi resolution, your custom graphic will attract attention to your booth. The graphic uses high resolution panels. Each unit is easy-to-ship or carry along with the included case. Every set of pop-up display comes with a heavy-duty travel case at no extra cost.

Application:

This "pop-up display", also known as an exhibit booth, is perfect for exhibit 10ft wide graphics at trade shows, conventions and exhibitions.

10ft Straight Pop Up –Spring Connection

one set frame

carrying case

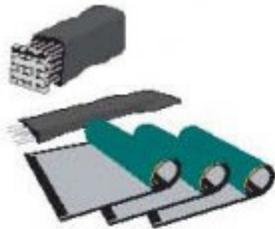

optional light

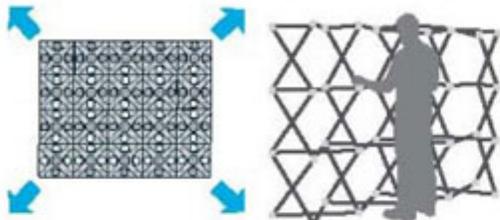

POP UP SYSTEM - SET UP INSTRUCTIONS

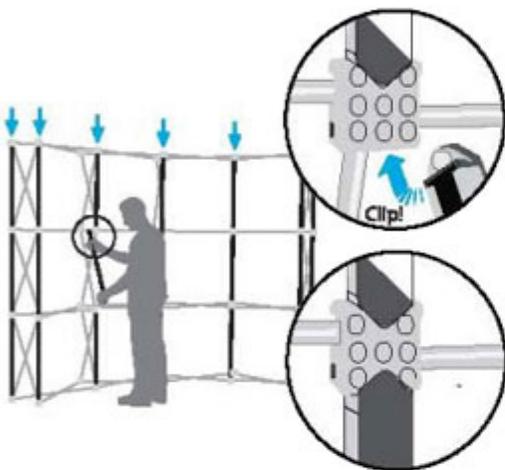

- 1, You will find all the needed components in the carrying case

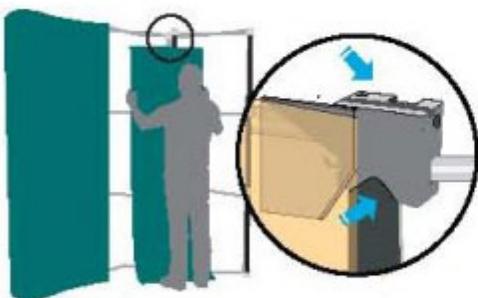

- 2, Remove frame, magnetic bars and the graphic panels from the carrying case

- 3, Place the frame on the floor with hubs with graphic hangers facing up and towards you. Grasp frame scissors and lift to expand frame

- 4, Apply the bars to all vertical quadrants on front side of the frame and to each end on back side of the frame. For a double sided frame, apply the bars also on the back side of the frame.

- 5, Hang the graphic panels on the top hub-hangers letting panels attach to bars. Do the same on both end-caps of the frame.

- 6, Close the transport case, put the black table top
