Overview

FMJ-650-II: 650mm (26") Desktop MASTER MOUNTING Cold Laminator

Top model table, driven by electric or by hand (optional)

No needed to be heated, no auto rewind shafts

Product highlights:

- . The mounting master 26" is a motorized top table laminator. With a simple structure, and portability.
- . The laminator comes with a foot pedal that control forward and reverse, leaving both hands free to handle the work that is being processed.
- . The easy speed control makes your daily job more handily; the laminating speed can be easily adjusted from 0-118.1" (0-3m)/min.
- . This model is designed for mounting and laminating inkjet prints, but is equally capable of handling photography or any printed media. The FMJ-650-IIZ is upgraded from FMJ-650-II, it has all functional characteristics of the FMJ-650-II, and comes with a support shaft for manually rewind the backing paper in some projects.

Application:

The cold laminator is used for after printing. Available for photography, advertising and copy shops to do lamination work, adding protective layer on books cover, photography, color pages, documents, charts, drawings, indoor advertising products, etc.

Applicable laminating medium:

Photopaper, self adhesive PP, backlit film or transparent film.

Warranty and service:

One year warranty

24-hour technical support services by email or calling.

User-friendly English manual for machine using and maintenance.
