Overview

Description:

602R-2 is a new kind of LED flashing mobile phone ornament. Based on the theory, of the persistence vision, fluorescent words or figures appears only by swaying or twirling it with different speeds, rhythms, and different effects. Compared with the former LED flashing mobile phone novelties, 602R-3 adds a new function, that is letters editable.

Operation steps as the following:

- . Press the button to open it.

- . Swaying it to see what letter it is at present. If that is not the letter you want, press the button to choose until you get the very one.
- . After find the right letter, you just need to wait for a few seconds and then it will go to the next letter for your choosing automaically.
- . Using the same way, you can get the supposed words finally.
- . Press the button again for a longer time to end the edition.
- . Swaying it to see the amazing effect.

Product highlights:

- . Smart but clear.
- . The background picture could be changed.
- . Different display effects including Chinese, English, Korean, Japanese or French versions for your choice.
- . One intellective button makes it easy to operate.
- . LED as light source.
- . Can be used 500 minutes consecutively.
