### Overview

#### Description:

The cap heat transfer machine is portable and smart. It will leave a perfect and clear picture on the caps. Spiral pressure design allows random pressure adjustment while working. A special fixing device allows the cap to be repaired and ensures the accuracy of the printer.

#### Features:

- Temperature and time, are displayed separately in a digital electronic screen.
- A vertical and ergonomic design makes for an easier and faster operating process.
- A microcomputer is installed in a separate box to ensure a consistency of temperatures, which makes the machine easy to handle.
- Spiral pressure design allows random adjustment for a stable pressure work
- A special fixing device which allows to fix the cap and ensures the accuracy of the printer.

**Notice:** The case in which the machine is stored is available in different colors, which can be chosen according to your preference, as long as they are in stock. The machine color can be ordered, although a waiting period and an additional charge should be taken into consideration. This applies only to bulk orders.

#### Warranty and after-sale service

One year limited warranty; spare wearing parts do not apply.

24-hour technical support by email or telephone.

User-friendly English manual, explains how to operate the machine and the required maintenance.
