Overview

Features:

- . Carbon composite fiber poles, superb flexibility to prevent breaking.
- . Ground spike – for its use on grass or earth.
- . Light weighted flagpole. Simple handling, no tools required.

Description:

The product is made up of 2 aluminum poles and 2 carbon poles that can be quickly removed from the base for an easier closing at the end of a business day. The ground spike is designed for its use outdoors, since it can be hammered into the ground, this base is designed for dirt or grassy areas.
