Overview

There’s no doubt about it, glass neon fixtures and accent lighting is expensive. Now you can achieve the look of traditional glass neon with extremely flexible, inexpensive, custom cuttable, LED Neon Rope Light. Choose from eight unique colors, or Color Changing RGB which can be used with a multi function controller. A combination of emerging LED technology along with innovative opaque PVC tubing gives LED Neon its ability to mimic the uniformity and brightness of light produced by traditional glass neon, at a fraction of the price. LED Neon Rope Light can be used for indoor or outdoor applications, and is so flexible that it can even be used to replace custom neon signs! Give your restaurant or business the attention it deserves with the cleanest, brightest, most uniform LED lighting available.
LED Neon Rope Lights are the easiest and most economical way to add more extravagant lighting outside or for more subtle needs inside your home or business. Using LED technology and a special PVC jacket to create the most cost effective neon-like lighting. It gives you 80% power savings over traditional glass neon. Use them inside as soft accent lighting that is fully dimmable or outside to create a dazzling effect.
