### Overview

- **Wide format, it's suitable for large media.**
- **Accurate time and temperature display**
- **Enough output power for a convenient use.**
- **Heating is evenly distributed to guarantee a good work.**
- **Most customers appreciate the delicate workmanship.**

#### Description:

The heat press machine is large format and manual, suitable for transferring large objects. This is a professional machine specialized in large textiles. It contains enough output power to use as preferred. In order for the pressure to be adjusted, the knob must be turned to the right while the machine is in progress. Two separate digital controllers show the exact time and temperature, making it easy to review them. Great value is generated due to fine workmanship, such as a silicon pad, a fine heating panel, an innovative machinery structure and a delicate exterior appearance.

#### Related Products:

Epson Printer

Heat Transfer Blanks

Sublimation Ink

Heat Transfer Paper\Film

#### Applications:

This heat press machine is suitable for transferring images to a table cloth, t-shirts, bags, pants and similar flat surfaces made of textile, knitting, non-woven, chemical fiber or cotton materials, metal sheets, adornments, etc.

**Notice:**

The machine can be purchased in a variety of colors, depending on availability. Color can be custom ordered, although a waiting period and an additional charge should be taken into consideration. The case in which the machine is stored is also available in different colors, which can be chosen according to your preference, as long as they are in stock. This applies only to bulk orders.
