Overview

- **Wide format, it's suitable for large media.**
- **Accurate time and temperature display**
- **Enough output power for a convenient use.**
- **Heating is evenly distributed to guarantee a good work.**
- **Most customers appreciate the delicate workmanship.**

Description:

The Heat Press Machine is large format in manual type, so it's suitable to transfer large objects. This is a professional machine for large textiles. Enough output power is convenient. The comfortable pressure comes from `one` more pressure adjust knob. You can twist the knob to the right setting when operating. Two separate digital controllers show time and temperature accurately and it's easy to check. Great value is generated because of the fine workmanship, such as good silicon pad, fine heating panel, reasonable machinery structure and delicate appearance.

Related Products:

Epson Printer

Heat Transfer Blanks

Sublimation Ink

Heat Transfer Paper\Film

The Large Format Heat Press Machine is professional for transferring images expansive media, such as table cloth, T-shirts, pants and

others which are with flatsurface made of textile, chemical fibre or cotton materials, and metal sheet, adornment, etc.
