.Including customized graphic printing

.Very simple to transport

.Tubular framing snaps together in minutes. No additional hardware needed

.Seamless dye-sublimated fabric backwall-Straight Shape

This booth display is a great addition to any trade show presentation. The booth display, also known as banner stands, is printed from a user's submitted layouts. The custom signage goes through a dye-sublimation printing process on high stretch fabric. The resolution is 720 DPI, which results in a brightly colored and detailed exhibit. The stretchy material eliminates wrinkles when pulled taut. This booth display is constructed from an aluminum tube frame that sets up with a snap of a button. The trade show backdrop is therefore incredibly portable due to the knockdown design.

Dye-sublimation Process:

1. Large Format Printing

2. Heat Press Transfer

3. Special Sewing Workshop

Tension Fabric Materials:

Features

1. Stretch, durable and wrinkle free
2. Brightly-colored, detailed and anti-uv
3. Washable and recyclable

4 Steps for assembly:

Step 1: Unpack the case then pull out large tube bag. Please keep frame & fabric clean

Step 2: Assemble frame following the symbol as shown above. Symbols will be on the back side of the tube. It is best to assemble with the frame lying flat and set upright after the fabric is attached.

Step 3: Stretch fabric over frame. Please use Gloves or clean hands and keep fabric away from dirty substance. Put fabric over frame and secure with zipper

Step 4: Stand unit upright.

Includes:

.Single Sided Graphic Print
