- ?Large screen LCD and function keys settled, and USB interface.
- ?Our factory owns the R&D right of this cutting plotter.
- ?Compatible software: Flexisign, CorelDraw, and Artcut.
- ?Standard HPGL language format, more compatibility and direct communication with CORELDRAW.

Spare Parts:

Roland blade (30, 45, and 60 degrees): + \$1.5 (common blade) /\$3 (A-grade blade)

Brief Introduce of Cutting Plotter:

?The cutting plotter is a common device in the advertising industry. You can transfer data to the plotter from `the` computer or by using a USB device (offline working). USB Device on Cutting Plotter is one of the new technologies promoted by our company. Benefited by such function, people can use a USB FLASH STORAGE instead of a computer to input and output files into `the` plotter. Using this, can solve all breakdowns caused by the connection between computer and cutting plotter.

?Process: the user should make a design, using compatible software; to set the type and size of the letter, and graphics needed. After the design is finished and cutting content is set, the user can send the file to the plotter. The computer controls the plotter and drives the

engraver to cut the letter and graphics (normally the vinyl and plastic film).

Details

Maximum Cutting Width	24" (620mm)
Maximum Media Feeding Width	28" (720mm)
Interface	COM, USB
Maximum Knife Press	500g
Maximum Cutting Speed	16" (400mm)/s
Standard Plotting Software	Artcut 2009
Computer System Requirements	Windows 95, 98, Me, NT, 2000, XP (64 bit) and Win7
Main Features	Cut plug-in for Corel DRAW. Steel sting feed rollers, leading shaft, high torque motor and micro-step driver

Specifications

Paper Feeding Mode	M-shaped bracket system and arbitrary original setting system.
Controller	16 bit CPU
Control Panel	Over-head, with LCD
Driver	High-speed step motor, micro-step driver
Maximum Paper Feeding Width	28.3" (720mm)
Maximum Cutting Width	24.4" (620mm)
Cutting Speed	0.8"-23.6" (20-600mm)/s
Maximum Cutting Length	Limitless
Maximum Cutting Thickness	0.5mm
Knife Press	10-500g(digital adjustment)
Minimum Size for Cutting Letters	0.1" (3mm)
Repetition Precision	±0.1mm
CPU	Double CPU
Type of Tool	Carbide blade
Type of Plot Pen	All types of plot pens with a 0.47" (12mm) diameter
Plotting Instructions	DMPL
Interface	COM, USB
RAM	128K-2M
Real cutter softball	?
Emergency stop	?
Power Supply	AC90V-AC240V 50Hz-60Hz 60W
Power Consumption	50W
Machine Dimensions	36.2"x10.2"x9.8" (920x260x250mm) (stand not included)
Machine Weight	28.7lb (13kg)
Packaging	Carton box
Packing Size	40" x 14" x 14" (1010mm x 360mm x 360mm) (Stand not included)
Gross Weight	37.5lb (17kg)
