### Overview

#### Description:

This 27.6 inch cutting plotter has a contour cutting function and is used to cut all kinds of pictures, letters on self-adhesive vinyl, stickers. It is made in China and comes with one year warranty.

#### Application:

This cutting plotter is really good for your business. It can make your work easier and faster for making any kinds of designs. You can use this machine for stickers signages, glass sign decals, penaflex, decal vinyl, masking film for painting or etching, vinyl lettering, decorative scrapbooking papers, card stock, stencils, magnetic sheet, as well as all kinds of T-shirt heat transfer media like flex, flock, Magi Cut colored paper for garments, etc.

#### Product Highlights:

- . Low cost and high performance sign making machine.
- . Controlled by RISC high speed processor, high speed cache.
- . Unique soft impact cutter for smooth cutting.
- . This cutting plotter adopts the latest numerical technology, which creates a new concept of cutting.
- . This vinyl cutter can regulate the pressure and speed at the real-time numerically. This is very convenient and fast.
- . It has a perfect output: there's no saw tooth even when using high speed.
- . It supports Corel draw file. This brings great convenience to your work.
- . The cutting plotter is highly stable and has nearly no malfunction.
- . The cutting plotter has a nice appearance and very solid support, to avoid wobbling while cutting.
- . The cutting plotter has LCD with a very accurate and simple English Menu, operated it by pressing buttons.
- . The plotter's pinch rollers are adjustable, so the paper stays in place when using rolls of media.. With this function, you can use the plotter to make materials for large light boxes.
- . This Cutting Plotter can work with Artcut, Flexi Sign, Signcut, WinPCsgin, SignBalzer, SignLab, etc. CorelDRAW plug-in driver (Cutmate2.0) is available for this machine. It supports direct cut-outs from `CorelDRAW` 11, 12, X3.
