Overview

Application:

After printing equipment. Available for photograph productions, advertising, shops, copy shop, lamination work, protective layers on books covers and color pages, documents, charts, drawings, indoor advertising and products.

Applicable Laminating Medium: Photopaper, PP, self-adhesive PP, backlit film or transparent film.

Product Highlights:

FMJ-1000-II simple cold laminator is an easy operation cold laminator driven by electric or manual(for option).

No auto rewind shafts, no need to heat, include stand.

This series manual/electric cold laminators are at a price that fit you budget and guarantee a quality result.

It comes with foot pedal with forward and reverse control to free your hands to handle the work being processed.

This cold laminator is great for mounting print to boards, applying application tapes, applying double side, adhesives and vinyls, saving time and no hassles.

Electric model, stepless speed regulating, with pedal switch, including stand. Simple structure, middle format laminating and mounting, adding a protective layer on your picture, which makes image brighter and keep it for longer time.

Note: If you use cold film for single laminating driven by electric, and your max. Laminating width is 1000mm(40"); this simple electric cold laminator is your best choice.

Warranty and after sales services:

One year of warranty except the spare parts.

24 hours technical support by mail or phone.

User friendly English manual on how to use the machine and accomplish the maintenance.
