Overview

- . SMD LED lighting for long life-span.
- . Aluminum magic mirror, it's durable and not out of shape easily.
- . Key lock, it's easy to replace picture and install.
- . 70%-80% energy saving than the traditional light box.
- . Control on/off by infrared ray sensor, when people approach, it displays a mirror, when people away, it displays a picture.

Description:

Magic mirror light box with aluminum frame changes between mirror and light box. Infrared ray sensor plays an important role during the whole operation because it's respondent. It's a mirror when you are approaching, and a picture when you are 47.2"-78.7"(1.2-2m) far away. It is super slim with unique design. It is widely used in shopping mall, hotel, restaurant, house, school, etc.

Remarks:

The overall Image size needs to be larger than the viewing size, In order to have a perfect fit and a great view of the image. That goes for all A1-A4 models.

Application:
