Material	Plastic

### Specifications

**Description:**

LFIP-LCSJ1545 is a wide format printer, of which the printing width is 1.5M, and its suitable ink is ECO ink. This printer adopts DX5 piezo printing head which is 24.4mm wide and 8 lines of nozzles. What's more, every line contains 180 nozzles, with a total of 1440 nozzles.

**Characteristics:**

- High transmission precision and long lifespan for precise gear-occlude directly transmission is adopted.
- Durable and lower noise when printing with famous brand guide rail –THK.
- Adopts special fluid damp feeding paper system and equipped with high quality fluid damp, thus feeding paper processor is more precise and smooth.
- Adopts advanced variable dot print technology, and minimum dot reach 3.5pl, maximum 27pl.
- With particular two-dimension intelligent eclosion and wave eclosion print function could avoid Banding in printing process.
- The printer supplies automatically cutting paper system, and thus user can select auto or manual cutting mode, saving both time and labor.
- The system supplies 6pass print mode. Thus users can select various materials for printing.
- The printer is equipped with eight 500ml big cartridges which supply ink for one line nozzle separately, so it ensures output big heavy picture with high speed.
- The printer takes lead to launch quick dry ink which can dry immediately after output, moreover hard to return the humidity and viscosity.

**Application:**

Adopting standard 6-color or dual 4-color print which outputs delicately and colourfully, it is suitable for advertising production and other high demand for multicolor output.
