Average Rating: lb (kg)

[Inquire Now](#)

Overview

- Air automatic with high efficiency.
- It is suitable for large production printing.
- Save both of your time and money.
- Teflon cloth between the cap heating mats can avoid the damage of image and make the image being transferred more clearly.

Description:

This cap heat press is air automatic. It can leave beautiful and clear image onto the caps. The picture transferred is not only vivid but also durable and can last for a long time on caps. It has electronic and digital time and temperature clock, so it is quite easy to adjust and operate.

Application:

It is widely used for the transferring of all kinds of images onto the caps.

Notice: Color of the machine is variable, and the color is random according to the ones in stock when you buy the machine. Certainly, you can choose the color we have made but need time to finish if it's not in stock. Also, you can customize the color you like but need extra cost and large order.
