### Overview

#### Crystal Semi-Glossy Photo Paper

**Characteristic:**

Semi-glossy, high resolution and professional prints; delivers a true look and feel of traditional glossy photo-graphs. Scratch and water resistant with a fast dry surface.

**Highlight:**

Compared with other photo papers, the most notorious difference is the PE layer paper coat on both sides. A brighter surfaces and anti-scratch and water resistant.

Pigment ink and water based dye ink can be used.

**Suitable printer:**

Widely used with water-based dye or pigment ink-jet printers such as Epson, HP, Canon, etc.
