Overview

Description:

The flag making system machine works with dye sublimation ink and fabrics. This system includes two units, the printer and the heater. The printer prints the image directly into the fabrics with the sublimation ink, and the heater, heats uniformly the prints until they become brilliant; there is no need of sublimated paper. Printing and dye sublimation is a continuous process, the machine prints and heats the flags to get a finish product in a faster way. The advanced system adopts a balance front and back bar, as well as a textile dyeing technology, this machine can make all kinds of banners, portraits, mirror flags and more.

Precautions (How to use the Inkjet Textile Printer):

There are basically three different types of ink for the Piezoelectric Printers, which are suitable for different textile fabrics. The ink may be 6 or 8 colors, depending on which printer will be used, as there is a great variety of choice. Sublimation ink is used for the textile fabrics of the chemical fibers.

Unique pressure roller design.

- . Convenient operation panel.
- . Balance weight system.
- . Advanced heat color development technology.
- . Two ways of rotation direction motor of fabric and feeding system.
- . Option of the automatic take up system.
- . Waterproof, anti-UV products.
- . This system has solved the disadvantage of the mirror effect in conventional flag making machines.
- . Roland FJ740 printer, maximum media width: 1,879mm.

Application:

The flag making system is used for textile directly dye, without any interval media. It makes all kinds of banners, portraits, mirror flags and more.

**Details**

Printing method	PIEZO Inkjet
Print color	6 color (Cyan, Magenta, Yellow, Black, Light magenta, Light cyan)

Ink type	Disperse dye ink (Sublimation ink)
Maximum media width	1879 mm

Specifications

MODEL	CS-2000	
Max. media width	1879 mm	
Printing Method	PIEZO Inkjet	
Print Color	color (Cyan, Magenta, Yellow, Black, Light magenta, Light cyan)	
Printhead Height control	1.5mm/2.5mm low /High	
Max. Resolution	1440dpi	
Printing Speed	Resolution	Speed
	540dpi/2Pass	28.6m ² /h
	540dpi/3Pass	19m ² /h
	720dpi/4Pass	14.4m ² /h
	720dpi/8Pass	7.2m ² /h
Power-saving function	Automatic sleep feature	
Media Size	Maximum Media Thickness: 1.0mm(0.039in.)	
Media diameter	2"or 3"	
Max. weight for roll media	40kg	
Ink Feeding System	Cartridge (220ml per Color)	
Printing Precision Level	±0.3% or 0.3mm	
Cleaning Head	Automatic and/or Manual	
Interface	Ethernet 10Base-T	
Operational	Power on - Temperature: 16?24°C / Humidity: 40?65% Power off - Temperature: 10?30°C / Humidity: 20?60%	
Power Resources	Direct dye sublimation heater: AC 220 V, 1 phase + N+ PE, 16A, 50/60 Hz Printer: AC 220V, 2A, 50/60Hz	
Weight	720kg	
External Shape	3440mm(W) x1160mm(D) x 1300mm(H) 3300mm(W) x880mm(D) x 1100mm(H)	
Ink type	Disperse dye ink (Sublimation ink)	
Media type	Polyester
