Overview

Description:

You can transfer any beautiful images you like to mugs made of ceramic or metal by this mug heat transfer machine, such as photos of figure, pictures of scene and so on, for advertising, making presents, marketing, etc. According to different materials or heat transfer ink, you can set different time and temperatures to transfer. It has the unique design with fashionable style and is easy to operate.

Features:

- . Digital control by the SCM program.
- . Silica gel plate for heating to help deliver perfect effect.
- . Automatically controlled constant temperature.
- . Even heating, high pressure.
- . It will alarm when the temperature is higher than that you set
- . Power saving and high working efficiency.
- . Easy to operate and maintain.

Notice: Color of the machine is variable, and the color is random according to the ones in stock when you buy the machine. Certainly, you can choose the color we have made but need time to finish if it's not in stock. Also, you can customize the color you like but need extra cost and large order.
