Overview

Description:

This kind of cap digital heat transfer machine adopts advanced technology thus has a good effect of transferring. Integrated electric control system makes it easy to adjust and convenient to maintain. The machine has delicate outer appearance with fine workmanship and it's durable and smart.

Applications:

It is widely used in transferring pictures, words, flowers onto all kinds of caps. It can also transfer paper and textile with small heating area.

Features:

- . Digital control by the SCM program ensures the high precision and sensitivity.
- . Count automatically and it will alarm when the temperature goes higher than the one you set.
- . The change between Centigrade and Fahrenheit is available.
- . Detection of the line-break by the sensor.
- . Heating temperature and time could be set randomly.
- . Automatically controlled constant temperature.
- . Integrated electric control system for adjusting easily and maintaining conveniently.
- . Fashionable outlook, easy and safe to operate.

Notice: Color of the machine is variable, and the color is random according to the ones in stock when you buy the machine. Certainly, you can choose the color we have made but need time to finish if it's not in stock. Also, you can customize the color you like but need extra cost and large order.
