Overview

Ink vacuum is specifically designed for cleaning printer nozzles with vacuum absorbing function. The vacuum consists of an ink absorbing motor in the top, a filter in the middle and ink-storage in the bottom.

Features:

- . Especially designed exchangeable filter element, mounted between motor and waste ink tank, prevent motor polluted.
- . Proof- corroding structure for a longer lifespan.

Remark: 1200 A type has smaller diameter, which is ?10.8" (275mm).
