### Overview

#### Description:

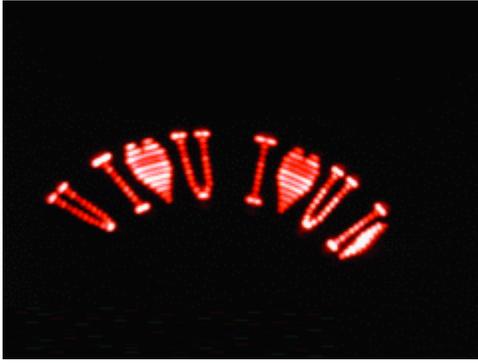

The product is a kind of LED flashing key chain ornament. Based on the theory of the persistence vision, fluorescent words or figures appears only by swaying or twirling it with different speeds, rhythms, or waving ways would produce different effects. Compared with the former LED flashing mobile phone novelties, 603R-2 adds a new function, that is letters editable.

#### Operation steps as the following:

- . Press the button to open it.
- . Swaying it to see what letter it is at present. If that is not the letter you want, press the button to choose until you get the very one.
- . After find the right letter, you just need to wait for a few seconds and then it will go to the next letter for your choosing automatically.
- . Using the same way, you can get the supposed words finally.
- . Press the button again for a longer time to end the edition.
- . Swaying it to see the amazing effect.

#### Product highlights:

- . Opaque and mysterious.
- . Clear and strong.
- . Smart and elegant.
- . Different display effects including Chinese, English, Korean, Japanese or French versions for your choice.
- . One intellectual button makes it easy to operate.
- . LED as light source.
- . Can be used 500 minutes consecutively.
