Overview

Description:

This P20 outdoor full color advertising LED display screen adopts physical and virtual pixel technology. The images are more clear and vivid with no flickering or blinding dots. This display has a water and dustproof design, so it can work very well in the rain or under the sun. The product structure is very convenient for disassembling. And the size of cabinet can be customized, thus it's an ideal product for

advertising.

Advantages:

- . High quality and brightness, wide color span.
- . High reliability and anti-static LED chips from `renowned` factory.
- . Automatic equipment producing.
- . Constant current, LED and driving panel are designed separately.
- . Sealed with high quality silicone, carefully tested by water spraying before delivery.
- . High accuracy and numerical control metal plate cabinet.

- . Durable and long lifespan.

Cabinet Size:

- P20 64*48dots 50.4"*37.8" (1280*960mm)
- P20 64*64dots 50.4"*50.4" (1280*1280mm)
- P20 64*32dots 50.4"*25.2" (1280*640mm)
- P20 48*48dots 37.8"*37.8" (960*960mm)
- P20 48*32dots 37.8"*25.2" (960*640mm)
- P20 32*32dots 25.2"*25.2" (640*640mm)

Specifications

Specification:

Pixel density	2500dots/ m ²	Pixel configuration
Red wavelength	625±2nm	Green wavelength
Blue wavelength	470±2nm	Colors
Ideal viewing distance	49.2'-984.3' (15-300m)	Horizontal viewing angle
Maximum power consumption	?1100W/ m ²	Brightness
IP grade	IP65	Grayscale
Color temperature	6500K	Control method
Driving method	Constant static	Frame frequency
Refresh frequency	?300Hz	Working voltage

Working temperature	-20°C-- +60°C	MTBF
Lifespan	100,000 hours
