### Overview

#### Characteristics and use:

- Replaced the traditional CHCL3 adhesive.
- The sticking parts are all transparent, non-white border, no bubbles, no part-separating.
- Strong hold, bonding is stronger than CHCL3.
- Adhering point can be solid within 15 seconds.
- The adhesive flows fast and equally through the joint-face.
- The sawed borders should not be polished. Polishing effect can be achieved by brushing this product.
- 17.6oz (500g)/bottle

#### Using method:

Conventional needle injecting or brushing.

#### Warning:

- If product gets in contact with your skin rinse with water.
- Use in a ventilated environment.
- Close after use, keep in a dark place.
