Overview

Application:

This machine es popular with our clients once it was launched into `the` market. Customers can save their own photos, design and more, into `the` software and then print them directly on the t-shirt.

Features:

- . Color durability on tshirts.
- . Print directly on the t-shirt, there is no need of coating.
- . Fast speed print.
- . With one click you can get clean the ink head, easier to use.

Description:

After rigorous test by our research and develop team; a pioneer and beneficial technology was launched, the A3 t-shirt printer. Our t-shirt Printer can print any design directly into `the` t-shirts (on any color), living a very vivid and clear color, there is no color deviation. It is more efficient, fastest and easier to use than the traditional printing process, even though in there is only one t-shirt to print, the cost rate is very low.
